

An aerial photograph of a large industrial facility, likely a Volvo manufacturing plant. The plant consists of several large, interconnected buildings with grey roofs. Surrounding the plant are extensive parking lots filled with cars and trucks. In the background, two large white wind turbines stand prominently against a hazy sky. The foreground features a complex highway interchange with multiple lanes and overpasses. To the left and right of the plant, there are residential neighborhoods with houses and green spaces. The overall scene depicts a modern industrial hub integrated into a suburban landscape.

Welcome

OUR HISTORY

1927

1999

The image features three Isuzu trucks, likely Isuzu Quon models, arranged in a row. The truck on the left is a white cab model with a large chrome grille and a 'Quon' badge on the front bumper. The middle truck is a dark-colored cab model with a prominent chrome grille. The truck on the right is a white cab model with a large chrome grille and a 'Quon' badge on the front bumper. A white circle with the year '2001' is centered over the middle truck. A vertical white line runs through the center of the image, passing through the circle.
