

UPDATE on the Emergency Procedure (“EP”) and how to interpret this.

NCTS P5 will be available on 21 January 2025
around +/- 10.00AM (after internal and external tests).

- The **4 day GLOBAL Emergency Procedure** is intended to help companies and/or software providers who encounter unexpected problems: you are covered by this; but you can on-board at your own pace.
- In case of urgent shipments: you do NOT need to apply for an individual Emergency Procedure since there is a global EP already active:

- Keep an eye on the GAC&E “News page” GAC&E Link [NL](#) - Link [FR](#)
- In case of issues: notify your software provider !

UPDATE mbt de Nood Procedure (“NP”) en hoe hier mee om te gaan.

NCTS P5 zal beschikbaar zijn op 21 January 2025 omstreeks +/- 10.00AM (na interne en externe tests).

- De 4 daagse **GLOBALE Nood Procedure** is bedoeld om de bedrijven en/of software leveranciers te helpen in geval van onverwachte problemen: zij zijn gedekt door deze Nood Procedure; en ze kunnen op hun eigen ritme on-boarden.
- In geval van dringende verzendingen: u hoeft dus geen individuele Nood Procedure aan te vragen gezien er al een Globale NP actief is:

- Hou de AAD&A “News page” in het oog: Link [NL](#) - Link [FR](#)
- In geval van problemen: verwittig uw software leverancier!

UPDATE concernant la Procédure d'Urgence ("PU") et comment la comprendre/utiliser.

NCTS P5 sera accessible le 21 Janvier 2025
à partir de +/- 10.00 AM (après des tests internes et externes).

- Le but de la **PU GLOBALE de 4 jours** est d'aider les firmes et/ou fournisseurs de logiciels en cas de problèmes imprévus: elles sont couvertes par cette PU globale; et peuvent faire leur on-boarding à leur propre rythme.
- En cas d'envois urgents: vous ne devez donc PAS demander une PU individuelle, car il y déjà une PU globale en application:
