COLLECTION OF THE €3 IN BE

- Currently, the vast majority of LVC-declarations does not run over FINDA (= BE customs' accounting system), as there are no customs duties to be paid, and the VAT is handled via IOSS
- FINDA is not equipped to handle this extra load
- Hence:
 - * H1 code F53, H7 code F49 and H7 code F53: will run over FINDA
 - * H1 code F48 and H7 code F48 (IOSS): will not run over FINDA, monthly reporting, manual registration in FINDA, manual invitation to pay
- Future: rewrite FINDA is launched, for a transactional financial treatment of all declarations

GUARANTEE IN BE

- Debts need either to be paid immediately or be covered by a guarantee
- A comprehensive guarantee will be asked for H1 code 48, H7 code 48 and H7 code 49
- Based on the amounts of April 2026
- Monthly evaluation to see whether the amount of the guarantee needs to be adapted
- Future: transactional write-off of the guarantee
